## 1F. Continuum of Care (CoC) Housing Inventory--Change in Beds Available

For each housing type, indicate if there was an increase or reduction in the total number of beds in the 2008 electronic Housing Inventory Chart (e-HIC) as compared to the 2007 Housing Inventory Chart. If there was a change, please describe the reasons in the space provided for each housing type.

**Emergency Shelter:** Yes

**Briefly describe the reasons for the change:**

The number of emergency shelter beds increased in the 2008 housing inventory because additional providers of emergency shelter joined the CoC in 2008.

**Safe Haven Bed:** No

**Briefly describe the reasons for the change:**

There are no Safe Haven beds in the 2008 inventory, and there were none last year.

**Transitional Housing:** Yes

**Briefly describe the reasons for the change:**

There was an increase in the number of transitional beds in the 2008 inventory as compared to the 2007 inventory because additional housing providers joined the CoC in 2008. In addition, the CoC developed 78 new transitional beds.

**Permanent Housing:** Yes

**Briefly describe the reasons for the change, including changes in beds designated for chronically homeless persons:**

The number of permanent housing beds increased in 2008 as compared to 2007 because new providers joined the CoC, and because new 76 units of permanent housing were developed, including 11 units designated for the chronically homeless. However, the total number of beds designated for the chronically homeless decreased due to some non-HUD funded providers re-purposing their beds.

**CoC certifies that all beds for homeless persons are listed in the e-HIC regardless of HMIS participation and HUD funding:** Yes

(select all that apply)

**Specify "other" data types:**

**If more than one method was selected, describe how these methods were used.**

The HUD unmet need formula was used to determine the basic amount of unmet need. The final unmet need was adjusted using provider opinion to ensure applicability to local areas. The unmet need for emergency shelter and transitional housing reflects the fact that a number of geographic areas of the state still do not have any kind of shelter at all, while in other areas, the available shelter and transitional housing may be designated for specific needs (many for domestic violence). Permanent housing is a need in all geographic areas.

**Briefly describe the CoC's plans to overcome challenges and barriers:**

The Carolina Homeless Information Network (CHIN) is working with CoC participating agencies and leadership to assist them in improving their data quality and bed coverage, and to move them closer to an unduplicated count of homeless individuals served. Standardized and customized reporting, end user certification and refresher training, and focused technical assistance are some of the tools that CHIN staff use to assist continua. CHIN is also developing a Continuous Improvement Plan for all continua to help them monitor their HMIS improvement throughout the year. This plan will include measurable goals.

Beyond standard APR and AHAR reports, CHIN has developed a comprehensive monthly data quality report to provide agencies with an overview of their usage. The report categories are: percentage of created records with complete demographic information, percentage of enrolled beds with complete program information, percentage of newly enrolled, number served, and occupancy rate.

CHIN has increased staff in recent months to meet the reporting and technical assistance needs of participating agencies.

## 2D. Homeless Management Information System (HMIS) Bed Coverage

### Instructions:

The 2005 Violence Against Women Act (VAWA) Reauthorization bill restricts domestic violence provider participation in HMIS unless and until HUD completes a public notice and comment process. Until the notice and comment process is completed, HUD does not require nor expect domestic violence providers to participate in HMIS. HMIS bed coverage rates are calculated excluding domestic violence provider beds from the universe of potential beds.

**For each housing type, indicate the percentage of the CoC's total beds (bed coverage) in the HMIS.**

* Emergency Shelter (ES) Beds	0-50%
* Safe Haven (SH) Beds	No beds in CoC
* Transitional Housing (TH) Beds	0-50%
* Permanent Housing (PH) Beds	0-50%

**How often does the CoC review or assess its HMIS bed coverage?** Semi-annually

**If bed coverage is 0-64%, describe the CoC's plan to increase this percentage during the next 12 months:**

The CoC's Carolina Homeless Information Network (CHIN) staff are working with individual regional CoCs and agencies to provide training and specific technical assistance and support to assist agencies in entering their beds into the inventory. The ICCHP will also provide training and technical assistance as needed. The NC Balance of State CoC Steering Committee is increasing the scoring incentives for HMIS full participation for project applicants in future CoC competitions. The NC BOS Permanent Housing and Transitional Housing Committees will review progress of existing grantees closely in their quarterly performance reviews.

## 2E. Homeless Management Information System (HMIS) Data Quality

### Instructions:

Where the collection of Social Security Numbers is not authorized by law, failure to collect this data element will not competitively disadvantage an application. Additionally, in lieu of the actual SSN, the response categories of "Don't Know" and "Refused" are considered valid response categories, per the HMIS Data and Technical Standards.

For additional instructions, refer to the detailed instructions available on the left menu bar.

**Indicate the percentage of unduplicated client records with null or missing values on a day during the last ten days of January 2008.**

Universal Data Element	Records with no values (%)	Records where value is refused or unknown (%)
* Social Security Number	6%	4%
* Date of Birth	3%	0%
* Ethnicity	4%	0%
* Race	1%	0%
* Gender	1%	0%
* Veteran Status	7%	2%
* Disabling Condition	15%	7%
* Residence Prior to Program Entry	6%	2%
* Zip Code of Last Permanent Address	10%	9%
* Name	0%	0%

**Did the CoC or subset of the CoC participate in AHAR 3?** No

**Did the CoC or subset of the CoC participate in AHAR 4?** No

**How frequently does the CoC review the quality of client level data?** Monthly

**How frequently does the CoC review the quality of program level data?** Monthly

**Describe the process, extent of assistance, and tools used to improve data quality for participating agencies.**

CHIN uses comparative reporting to assist agencies as they improve their client and program data. The primary report is the monthly Data Quality Report; however, agencies may request a report at any time during the month. Standardized ServicePoint reports are available continuously including: APR data, clients served, and clients not served. For agencies that need improvement, on-site and on-line data entry technical assistance and training are available at no charge to agencies. In extreme cases, contract data entry assistance is available for agencies to help them catch up on data entry.

Continua use the CoC wide CHIN Data Quality Reports to review agency participation frequently throughout the reporting year. This is part of a continuous process of improvement which includes all facets of the data collection, data entry and reporting procedures. Each aspect is reviewed by CHIN staff and continua leadership to determine what measures are needed for agency improvements.

**Describe the existing policies and procedures used to ensure that valid program entry and exit dates are recorded in the HMIS.**

A commitment to accurate data entry, including program entry and exit dates, begins when agencies sign their Agency Participation Agreement. In this contract, agencies agree to adhere to CHIN's Standard Operating Policies which explicitly cover all HUD required data elements. Agencies and end users are reminded during certification training. Program entry and exit dates are covered specifically in the materials.

In addition to regular Data Quality Reports, when requested CHIN staff can generate a report for participating agencies that lists all clients with their program entry and exit dates and the fields that remain incomplete. This report assists agencies in determining how much data is missing from each client's record. As end users enter data into the network, CHIN staff provide follow-up reports.

## 2I. Continuum of Care (CoC) Point-in-Time Homeless Population

### Instructions:

This section must be completed using statistically reliable, unduplicated counts or estimates of homeless persons in sheltered and unsheltered locations on a single night. HUD requires CoCs to conduct a point-in-time count at least every two years during the last 10 days of January - January 22nd to 31st - and requests that CoCs conduct a count annually if resources allow. The last required count was in January 2007. Data entered in this chart must reflect a point-in-time count that took place during the last 10 days of January in 2007 or 2008, unless a waiver was received by HUD.

There are six (6) categories of homeless populations on this form. They are:

Households with Dependent Children - Sheltered Emergency  
Households with Dependent Children - Sheltered Transitional  
Households with Dependent Children - Unsheltered

Households without Dependent Children - Sheltered Emergency  
Households without Dependent Children - Sheltered Transitional  
Households without Dependent Children - Unsheltered

For each category, the number of households must be less than or equal to the number of persons. For example, in Households with Dependent Children - Sheltered Emergency, the number entered for ?Number of Households? must be less than or equal to the number entered for ?Number of Persons (adults with children).?

For additional instructions, refer to the detailed instructions available on the left menu bar.

**Indicate the date of the last PIT count:** 01/30/2008

**For each homeless population category, the number of households must be less than or equal to the number of persons.**

	Households with Dependent Children

## 2J. Continuum of Care (CoC) Point-in-Time Homeless Subpopulations

### Instructions:

Enter the number of sheltered and unsheltered adults who belong in each subpopulation category. As in the Homeless Populations chart, this chart must be completed using data from a point-in-time count conducted during the last ten days of January 2007 or January 2008. Only adults should be included in the counts for this chart, except for the Unaccompanied Youth (those under age 18) category. Subpopulation data is required for sheltered persons and optional for unsheltered persons, with the exception of Chronically Homeless.

**Complete the following information for the most recent point-in-time (PIT) count conducted using statistically reliable, unduplicated counts or estimates of homeless persons. Completion of the "Unsheltered" column is optional for all subpopulations, except for Chronically Homeless.**

	Sheltered	Unsheltered	Total
* Chronically Homeless (Federal definition)	87	150	237
* Severely Mentally Ill	124	50	174
* Chronic Substance Abuse	264	110	374
* Veterans	107	39	146
* Persons with HIV/AIDS	8	2	10
* Victims of Domestic Violence	322	32	354
* Unaccompanied Youth (under 18)	6	1	7

## 2K. Continuum of Care (CoC) Sheltered Homeless Population & Subpopulation: Point-In-Time (PIT) Count

### Instructions:

Separately calculate and enter the percentage of emergency shelter and transitional housing providers that provided data for the Homeless Population and Subpopulation charts. For example, if 9 out of 12 transitional housing programs provided point-in-time data, enter 75%. If all providers for a program type contributed data, enter 100%.

For additional instructions, refer to the detailed instructions available on the left menu bar.

**Annually (every year); Biennially (every other year); Semi-annually (every six months)**

**How often will the CoC conduct a PIT count?** Annually

**Enter the date in which the CoC plans to conduct its next annual point-in-time count:** 01/28/2009  
(mm/dd/yyyy)

**Indicate the percentage of providers supplying population and subpopulation data collected via survey, interview, and/or HMIS.**

**Emergency Shelter providers** 83%

**Transitional housing providers:** 57%

## 2L. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation: Methods

### Instructions:

#### Survey Providers:

Providers counted the total number of clients residing in each program on the night designated as the point-in-time count.

#### HMIS:

The CoC used HMIS to complete the point-in-time sheltered count.

#### Extrapolation:

The CoC used extrapolation techniques to estimate the number and characteristics of sheltered homeless persons from data gathered at most emergency shelters and transitional housing programs.

For additional instructions, refer to the detailed instructions available on the left menu bar.

**Indicate the method(s) used to count sheltered homeless persons during the last point-in-time count:  
(Select all that apply):**

<b>Survey Providers:</b>	<input checked="" type="checkbox"/>
<b>HMIS:</b>	<input checked="" type="checkbox"/>
<b>Extrapolation:</b> (Extrapolation attachment is required)	<input type="checkbox"/>
<b>Other:</b>	<input type="checkbox"/>

**If Other, specify:**

**Describe how the sheltered population data was collected and the count produced. Additionally, comparing your most recent point-in-time count to the last biennial/annual count, describe any factors that may have resulted in an increase, decline or no change in the sheltered count.**

The NC Interagency Coordinating Council for Homeless Programs (NCICCHP) determined the date for the statewide point in time count (January 30, 2008). NC ICCHP staff provided training and technical assistance to agencies in the CoC to prepare them for the count. The count was performed on January 30, 2008. Agencies used administrative records to determine the number and subpopulation type of clients sheltered on January 30, 2008. Many agencies were able to use the CHIN HMIS to obtain their data or to verify their counts. The NCICCHP collected aggregate numbers for all participating agencies in the state.

This year our sheltered count was higher than last year, partly because more agencies joined into the Balance of State COC, and more agencies participated in the count. The increase was mostly in emergency shelter, and some of it may be due to local economic conditions, which have worsened this year, in addition to the higher incidence of reporting.

## 2M. Continuum of Care (CoC) Sheltered Homeless Population and Subpopulation Data

### Instructions:

#### HMIS:

Only HMIS used for subpopulation data on sheltered persons (no extrapolation for missing data).

#### HMIS plus extrapolation:

Extrapolation to account for missing HMIS data and HUD's extrapolation tool completed.

#### Sample of PIT interviews plus extrapolation:

Interviews conducted with a random or stratified sample of sheltered adults and unaccompanied youth and appropriate HUD extrapolation tool completed.

#### Interviews:

Interviews conducted with every person staying in an emergency shelter or transitional housing program on the night of the point-in-time count.

#### Non-HMIS client level information:

Providers used individual client records to provide subpopulation data for each sheltered adult and unaccompanied youth for the night of the point-in-time count.

#### Other:

CoC used a combination of methods.

For additional instructions, refer to the detailed instructions available on the left menu bar.

**Indicate the method(s) used to gather and calculate subpopulation data on sheltered homeless persons (select all that apply):**

	<b>HMIS</b>	<input checked="" type="checkbox"/>

	<b>Non-HMIS client level information:</b>	<input type="checkbox"/>
	<b>None:</b>	<input type="checkbox"/>
	<b>Other:</b>	<input checked="" type="checkbox"/>

**If Other, specify:**

Administrative records

**Describe how the sheltered subpopulation data was collected and the count produced. Additionally, comparing your most recent point-in-time count to the last biennial/annual count, describe any factors that may have resulted in an increase, decline or no change in the sheltered subpopulation counts, particularly the chronically homeless count.**

The NC Interagency Coordinating Council for Homeless Programs (NCICCHP) determined the date for the statewide point in time count (January 30, 2008). NC ICCHP staff provided training and technical assistance to agencies in the CoC to prepare them for the count. The count was performed on January 30, 2008. Agencies used administrative records to determine the number and subpopulation type of clients sheltered on January 30, 2008. Many agencies were able to use the CHIN HMIS to obtain their data or to verify their counts. The NCICCHP collected aggregate numbers for all participating agencies in the state.

This year our overall sheltered count was higher than last year, partly because more agencies joined into the Balance of State COC, and more agencies participated in the count. However, the number of chronically homeless who were reported sheltered in emergency shelter was lower, while the number of families with dependent children and victims of domestic violence sheltered in emergency shelter were higher, representing a larger proportion of emergency beds used. This increase in families with dependent children may be partly due to local economic downturns, including the loss of local industries in some areas.

### Instructions:

#### Complete coverage:

Every part of a specified geography (e.g. entire city, downtown area, etc.) is covered by enumerators.

#### Known locations:

Counting in areas where unsheltered homeless people are known to congregate or live.

#### Combination:

Conducting counts for every block in a portion of the jurisdiction (e.g. central city) AND conducting counts in other portions of the jurisdiction where unsheltered persons are known to live.

For additional instructions, refer to the detailed instructions available on the left menu bar.

## 2Q. Continuum of Care (CoC) Unsheltered Homeless Population and Subpopulation - Data Quality

### Instructions:

For additional instructions, refer to the detailed instructions available on the left menu bar.

Indicate the steps used by the CoC to ensure the data quality of the unsheltered persons count. (select all that apply)

Training:	<input checked="" type="checkbox"/>
HMIS:	<input type="checkbox"/>
De-duplication techniques:	<input type="checkbox"/>
Other:	<input type="checkbox"/>

If Other, specify:

**Describe the techniques used to reduce duplication.**

Persons conducting the count were careful to define specific geographic areas in which to count to avoid multiple counts in a common area. Then, homeless persons being interviewed were specifically asked if they had previously been interviewed, and if so, were not re-counted.

**Describe the CoCs efforts, including outreach plan, to reduce the number of unsheltered homeless households with dependent children.**

The NC Balance of State CoC works through agencies, community partnerships, and volunteers to engage and assist unsheltered homeless households with dependent children. The CoC includes state and local public school system representatives, and agencies providing housing and services partner with their school systems to identify and assist unsheltered households with dependent children. During the Point in Time Count, persons conducting interviews provide outreach and referral. In addition, many agencies and faith-based groups provide ongoing outreach efforts to engage and assist unsheltered households with dependent children. Once households are being assisted, agencies provide case management, counseling, and advocacy either directly or through partner agencies including the school systems, to prevent a return to homelessness.

**Describe the CoCs efforts to identify and engage persons routinely sleeping on the streets and other places not meant for human habitation. Additionally, comparing your most recent point-in-time count to the last biennial/annual count, describe any factors that may have resulted in an increase, decline or no change in the unsheltered population (especially the chronically homeless and families with children).**

The NC Balance of State CoC has numerous agencies and faith-based groups that provide street outreach on an ongoing basis to identify and engage unsheltered persons. In addition, a strong outreach effort is undertaken in partnership with law enforcement agencies during the Point in Time Count, in which persons performing the count seek out and attempt to engage unsheltered persons.

Comparing our most recent count to last year's Point in Time Count shows a decrease of counted unsheltered persons from 961 last year to 777 this year. The number of unsheltered persons in households with dependent children decreased slightly from 385 to 331, although the total number of households increased slightly. The number of unsheltered persons identified as chronically homeless increased from 99 to 150, although this is mainly a result of better training of persons conducting the count and better interviewing techniques that properly identified persons as chronically homeless. We increased our rates of subpopulation identification for all subpopulations except veterans and youth as a result of better training and interviewing.

Although some part of the decrease in the overall number of unsheltered persons may reflect normal variations in counts due to weather conditions and the difficulty of locating unsheltered persons in rural areas, we believe that the decrease in unsheltered persons also reflects the results of more extensive and effective outreach efforts to bring individuals and families into housing and shelter in many communities.

## 3B. Continuum of Care (CoC) Discharge Planning Protocols: Level of Development

### Instructions:

Pursuant to the McKinney-Vento Act, to the maximum extent practicable, persons discharged from publicly funded institutions or systems of care should not be discharged into homelessness. For each system of care, the CoC should indicate the level of development for its discharge planning policy.

For additional instructions, refer to the detailed instructions available on the left menu bar.

<b>Foster Care Discharge Protocol:</b>	Formal Protocol Implemented
<b>Health Care Discharge Protocol:</b>	Protocol in Development
<b>Mental Health Discharge Protocol:</b>	Formal Protocol Finalized
<b>Corrections Discharge Protocol:</b>	Protocol in Development

## 3C. Continuum of Care (CoC) Discharge Planning Protocols: Narratives

For each system of care describe the discharge planning protocol. For additional instructions, refer to the detailed instructions available on the left menu bar.

### **Foster Care Discharge**

**For Protocol Implemented, provide a summary of the formal and specific protocol, plan, process or policy that has been agreed upon.**

**Must attach protocol copy. Go to 3D.Discharge Planning Attachments page**

The NC BOS CoC covers 81 counties, and foster care programs are implemented at the local level. Therefore, the NC BOS CoC has worked to implement protocols in each county's Division of Social Services. These protocols confirm that the Foster Care program begins working with their charges long before anticipated discharge, and the discharge planning includes identification of housing and employment. In addition, some youth participate in the LINKS program which provides additional housing, education, and employment supports. The MOAs signed between the local NC BOS CoC representative and the county DSS confirm that no one will be discharged from foster care into homelessness.

### **Health Care Discharge**

**For Protocol in Development, indicate the collaborating agencies/partners, the estimated date of implementation, and a brief description of the protocol being developed.**

Discharge protocols must be developed and confirmed between each regional committee of the NC BOS CoC and the hospital that serves their community. Since the hospitals are independent, and do not fall under a state office the same way that the Mental Health hospitals, prisons, and foster care programs do, it has been harder to implement statewide procedures with all hospitals serving the NC BOS area. Protocols are under development, and hospital social workers are encouraged to participate in regional CoC meetings. Many of our hospitals have participated in SOAR trainings and are working with CoC members to improve access to disability income for homeless people who are frequently accessing hospital services. In addition, hospitals are encouraged to work with CoC members and other housing advocates to identify appropriate permanent housing placements for persons being discharged from the hospital.

### **Mental Health Discharge**

**For Formal Protocol Finalized, provide a summary of the formal and specific protocol, plan, process or policy that has been agreed upon and provide a date for implementation.**

**Must attach protocol copy. Go to 3D.Discharge Planning Attachments page**

The NC Balance of State CoC has worked with the NC Interagency Council for Coordinating Homeless Programs (ICCHP) members from the Division of Mental Health, Developmental Disabilities and Substance Abuse Services (The Division) to refine and implement protocols related to discharge of homeless people from state mental health hospitals and substance abuse treatment facilities. The Division's Office of State Operated Services and the ICCHP co-sponsored three regional trainings on appropriate discharge practices, and these trainings prepared both the Continua and the state's hospitals and treatment centers to refine their discharge practices. These protocols have been finalized in MOAs that are signed by each hospital, treatment program, and the CoC. The MOAs ensure that the facilities and the CoC members are implementing strategies to identify appropriate permanent housing for persons being discharged. The MOAs have been signed and will go into effect by 2009.

### **Correction Discharge**

**For Protocol in Development, indicate the collaborating agencies/partners, the estimated date of implementation, and a brief description of the protocol being developed.**

The NC Interagency Council for Coordinating Homeless Programs (ICCHP) members include representatives from the Department of Correction (DOC). DOC representatives have been participating on the ICCHP's Discharge Planning Workgroup for over 4 years. In addition, representatives from DOC participated in this year's ICCHP co-sponsored trainings on homelessness and discharge planning. Prisons across NC are not allowed to sign MOAs with local Continua; instead all MOAs must be coordinated with the DOC itself. Final protocols between the CoC and DOC are under final review by DOC attorneys. We anticipate the protocols will be implemented by winter 2009. In addition, the CoC has developed MOAs with local county jails. The MOAs confirm that the jails will not discharge anyone into a McKinney-Vento funded facility that does not meet HUD's definition of an eligible homeless person. In addition, jail staff are invited to participate in local COC meetings.

### 3E. Continuum of Care (CoC) Coordination

**CoCs should coordinate, as appropriate, with any existing strategic planning groups to assess the local homeless system and identify shortcomings and unmet needs. Answer the following questions regarding coordination in the CoC.**

**Does the CoC's Consolidated Plan include the CoC strategic plan goals to address homelessness and chronic homelessness?** Yes

**If yes, briefly list a few of the goals included in the Consolidated Plan:**

The North Carolina Consolidated Plan specifically references the North Carolina 10-Year Plan to End Homelessness and states the following goals in support of the 10-Year Plan:

- Provision of up to \$250,000 in ESG funds and up to \$5 million in emergency financial assistance to augment the 10-Year Plan goal to "implement aggressive prevention strategies."
- Use of approximately \$800,000 of the state's ESG allocation over the next 5 years to subsidize supportive services delivery, in response to the 10-Year Plan's identification of specific gaps in services.
- Development of 400 units of supportive housing for homeless persons with disabilities using \$4 million in HOME funding and \$4 million from the NCHFA Housing Trust Fund in support of the 10-Year Plan's goal of developing new Permanent Supportive Housing.

**Within the CoC's geographic area, is one or more jurisdictional 10-year plan(s) being developed or implemented (separate from the CoC 10-year plan)?** Yes

**Does the 10-year plan include the CoC strategic plan goals to address homelessness and chronic homelessness?** Yes

**If yes, briefly list a few of the goals included in the 10-year plan(s):**

Goals of local 10-Year Plans that include the COC strategic plan goals to address homelessness and chronic homelessness include:

- Increased local prevention efforts, particularly with regard to persons being discharged from hospitals and public institutions.
- Development of additional permanent supportive housing.
- Filling of gaps in supportive services to ensure previously homeless persons remain housed in permanent supportive housing.

### 3F. Hold Harmless Need (HHN) Reallocation

**Instructions:**

CoC's that are in Hold Harmless Need status may choose to eliminate or reduce one or more of their SHP grants eligible for renewal in the 2008 CoC competition. CoC's may reallocate the funds made available through this process to create new permanent housing projects or HMIS. Reallocation projects may be SHP (1, 2, or 3 years), SPC (5 years) or Section 8 SRO (10 years). CoC's that are in Preliminary Pro Rate Need (PPRN) status are not eligible to reallocate projects. Reallocated funds cannot be used for Samaritan Housing project(s).

Refer to the NOFA for additional guidance on reallocating projects.

**Is the CoC reallocating funds from one or more expiring renewal grant(s) to one or more new project(s)?** No

CoC's that are in Preliminary Pro Rata Need (PPRN) status are not eligible to reallocate projects.
