5. Helpdesk Q&A

AHAR

Annual Homeless Assessment Report

AHAR contains data from 2 sources

The U.S. Department of
Housing and Urban Development
OFFICE OF COMMUNITY PLANNING AND DEVELOPMENT

PART 1:
Point-in-Time Estimates of Homelessness

The 2016 Annual Homeless
Assessment Report (AHAR)
to Congress

NOVEMBER 2016

HMIS Data

Point in Time Data

Your HMIS Data MATTERS!

HMIS Data Standards MANUAL

July, 2017

U.S. Department of Housing and Urban Development

Aligns with Version 1.2 of the HMIS Data Dictionary

Universal Data Elements

Gender

Entry Date, etc.

Project Descriptor Elements

Project Type

Bed and Unit Inventories

HMIS data is based on HUD UDEs

October 1 to September 30 of the following year (12 months)

Any person who enters ES, TH and/or PSH during reporting period

Data are reported for individuals and person in families

Veterans are counted in a separate AHAR submission

Some HMIS data is not included

Homeless people who only use a supportive service program

People in shelters that target victims of domestic violence

People who are service resistant and do not access any type of homeless residential program

PIT data is also included in the AHAR

“Snapshot” of homelessness on a single night in late January

Unsheltered homeless population

Subpopulations: chronically homeless, mentally ill, veterans, unaccompanied youth, HIV/AIDS

Each category is evaluated for usability

Coverage

At least 50% of the beds in a category must be participating in HMIS.

Utilization

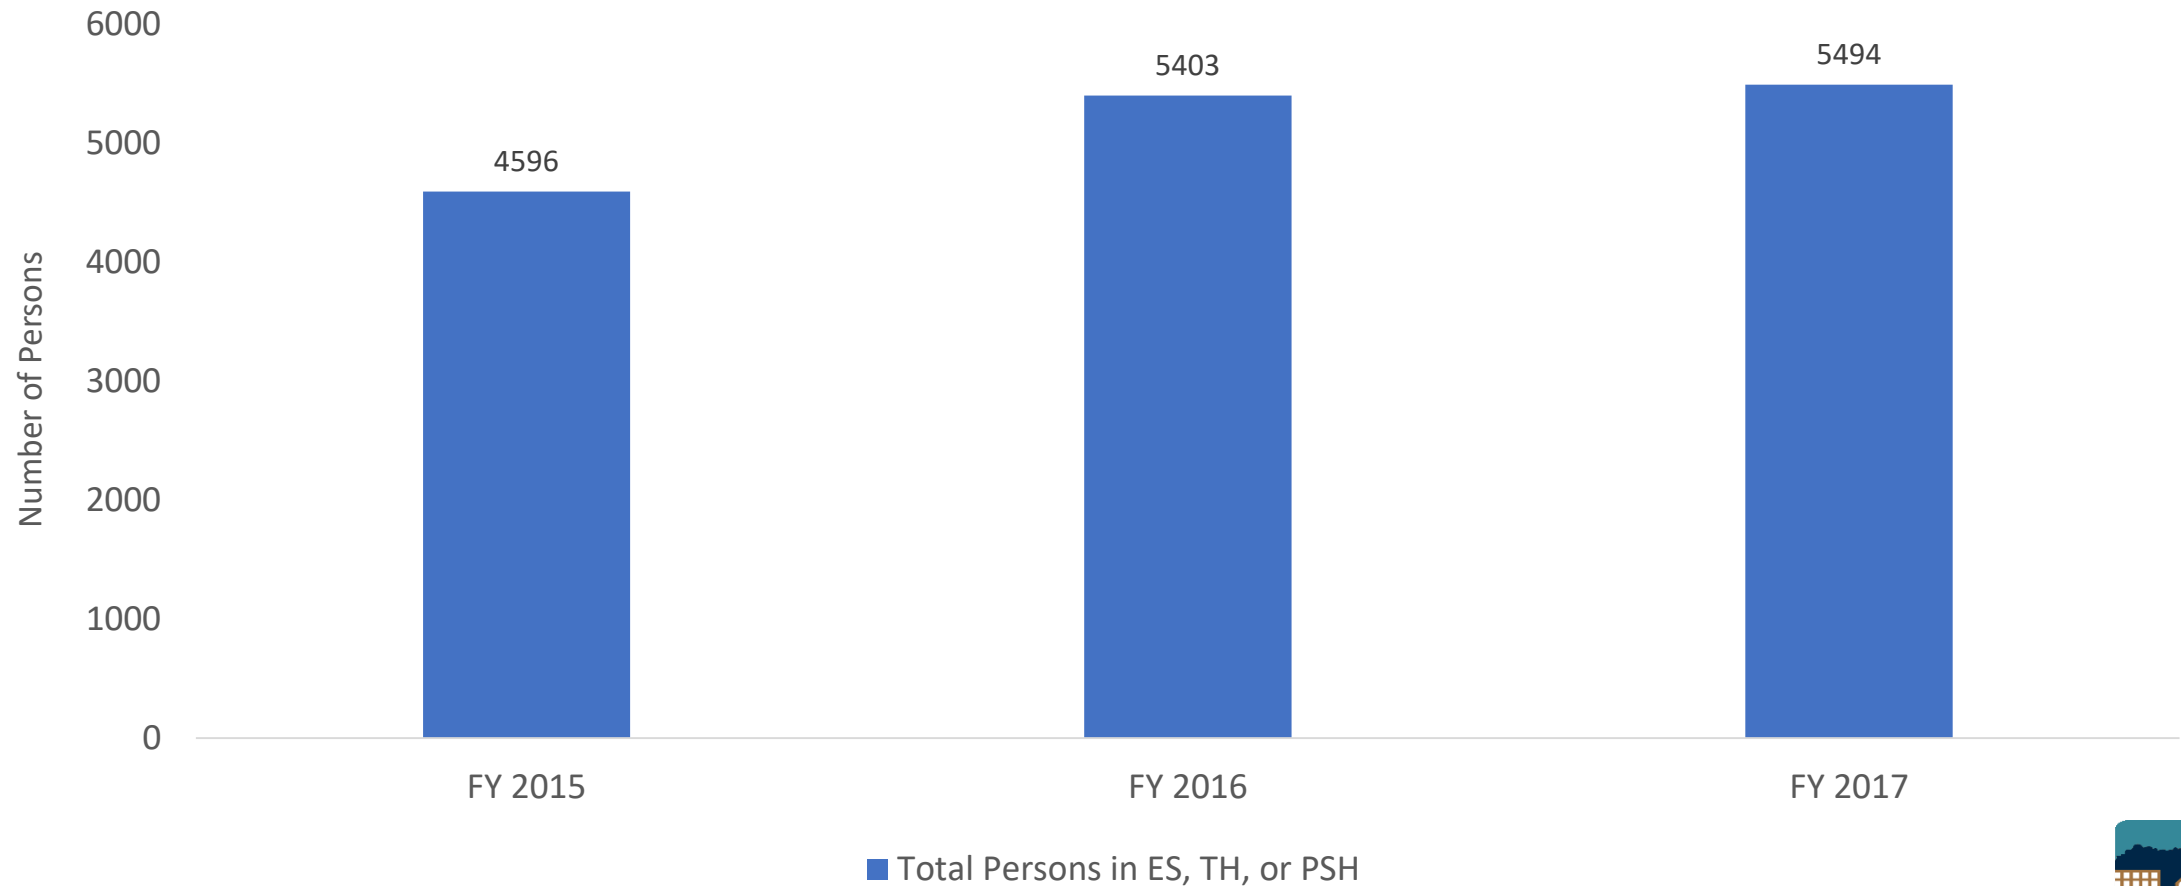

Bed utilization rates must be between 65% to 105%

Data Quality

Low rate of missing data
Data reflects what is valid
Information is consistent across time

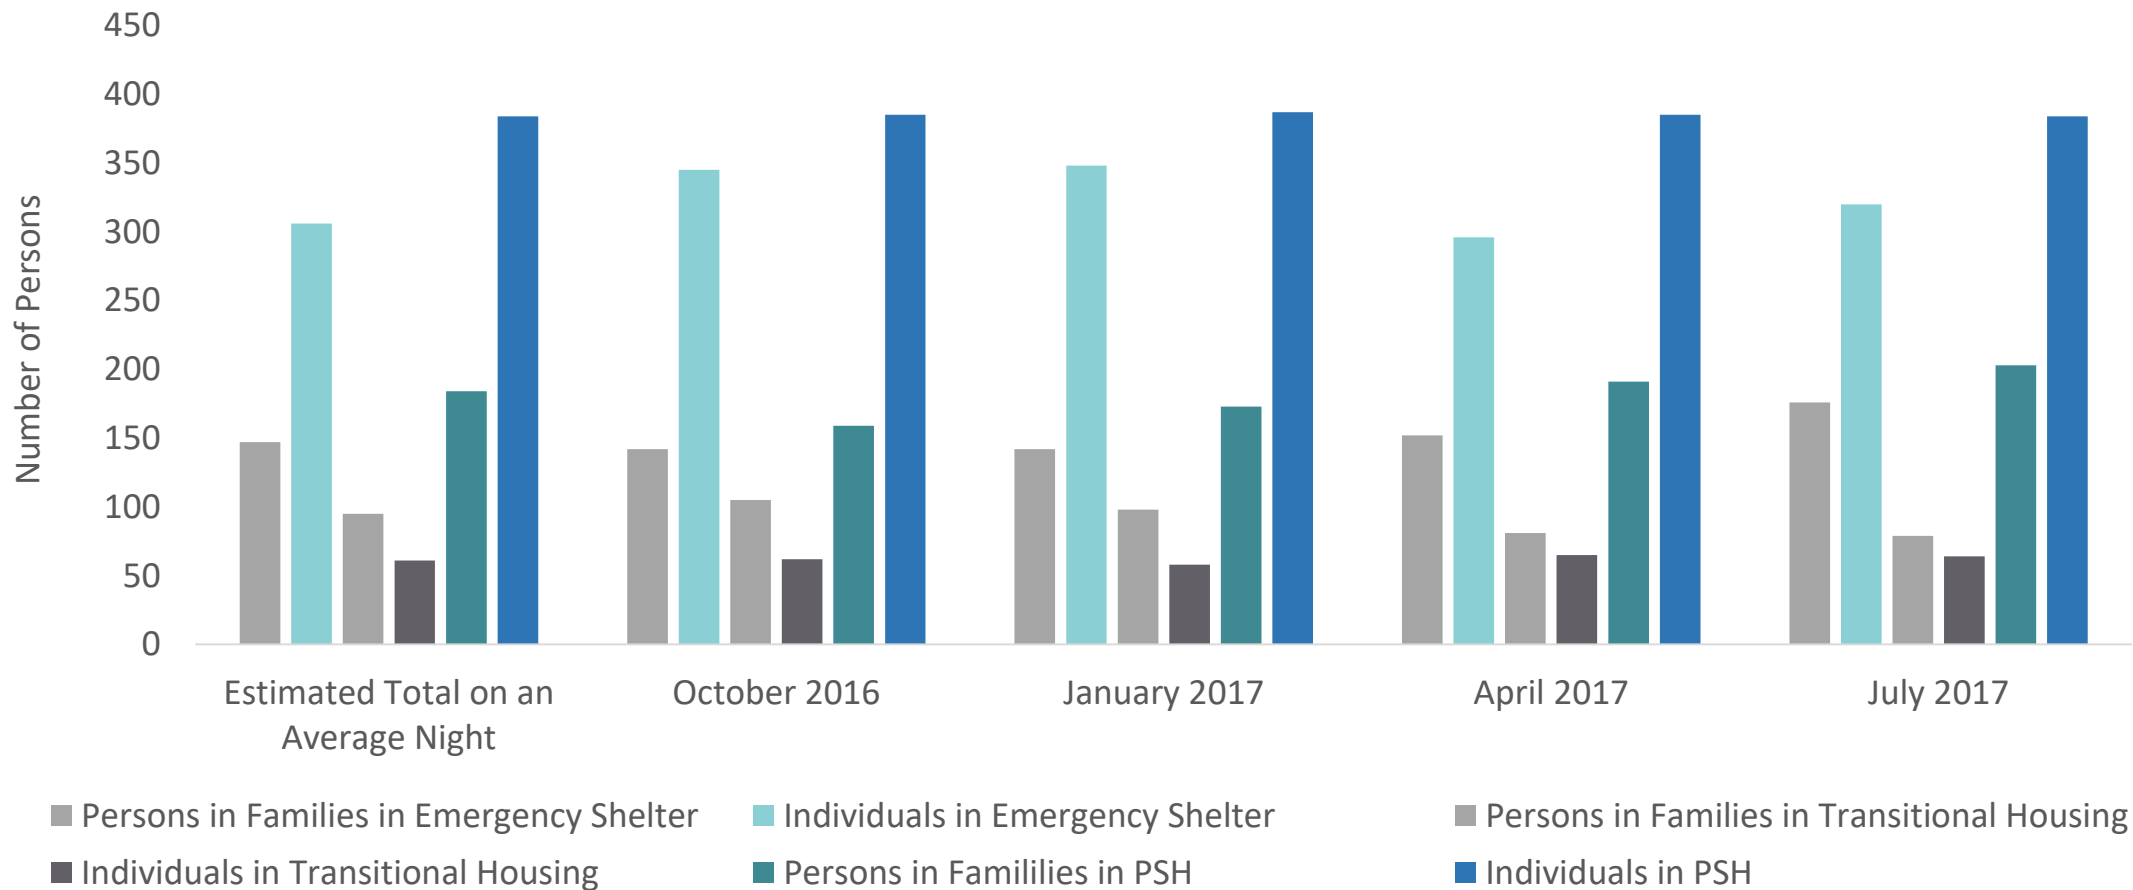

Unduplicated Annual Count

Source: Wake AHAR data

Estimated Client Counts throughout the year

Source: FY17 Wake AHAR data

Entries & Exits impact

Entries & Exits

Enter Data As mode for accurate project

Backdate mode for accurate dates

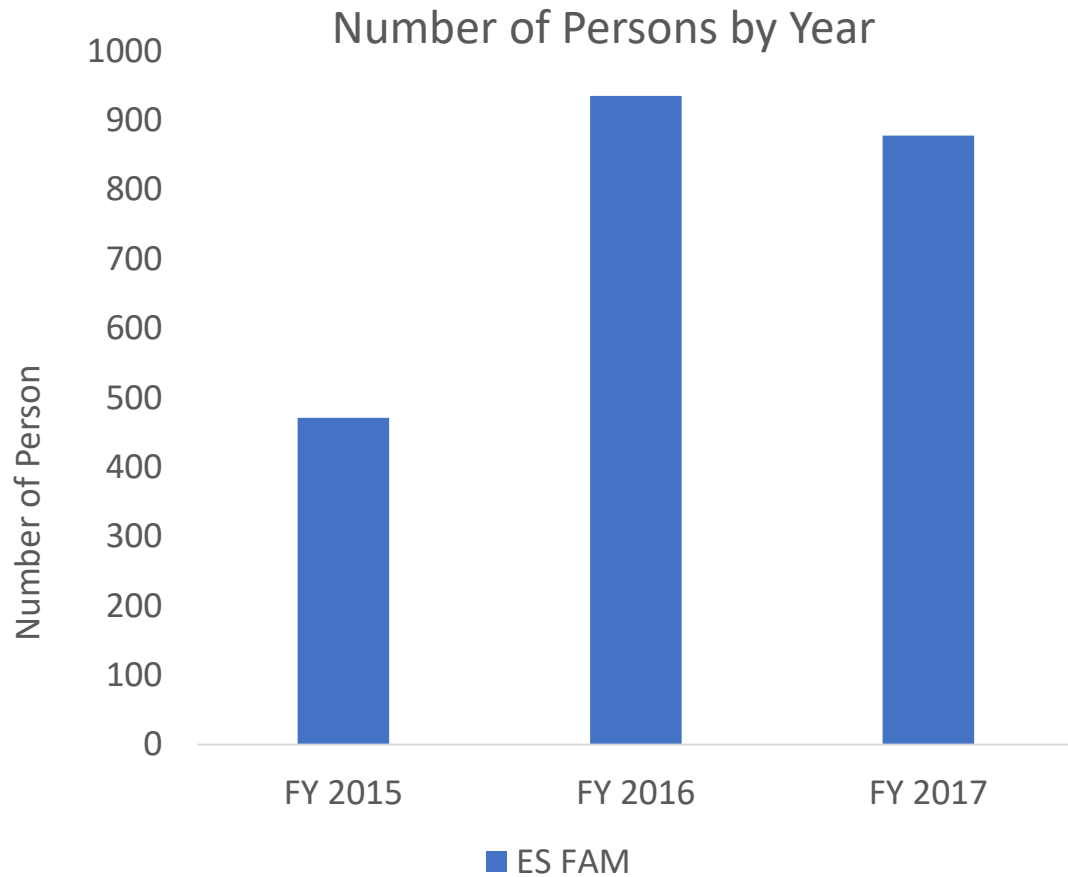

Timeliness

Delaying data entry increases risks to data quality

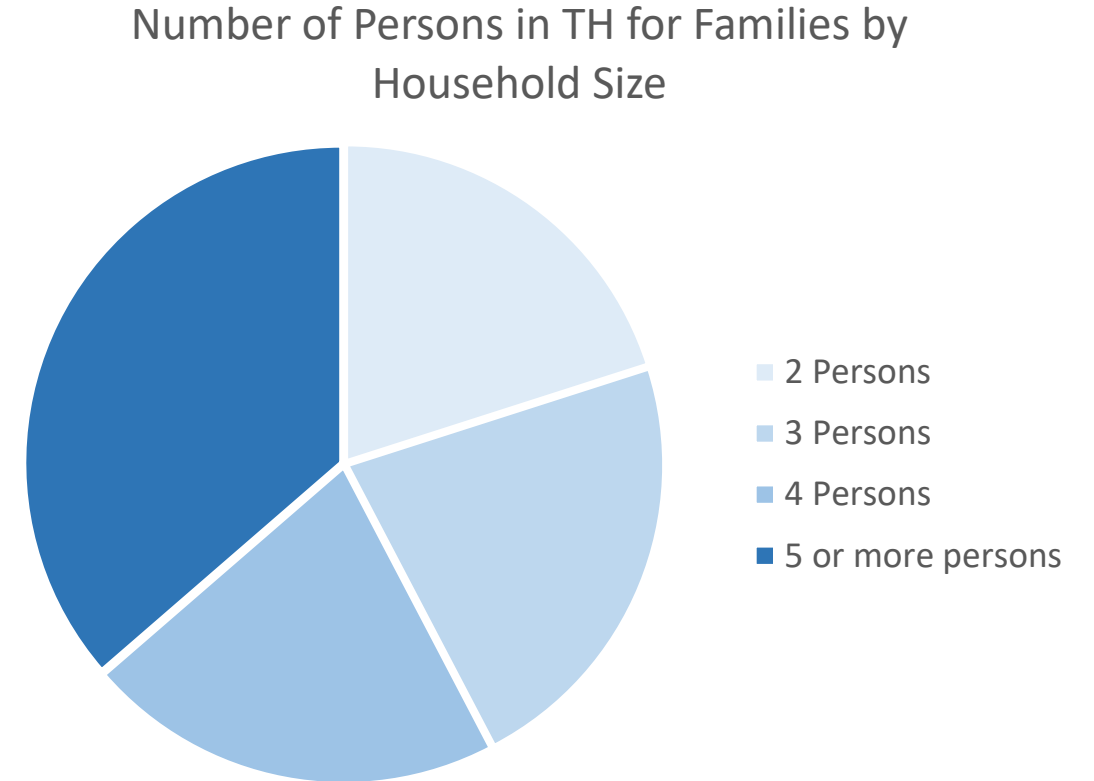

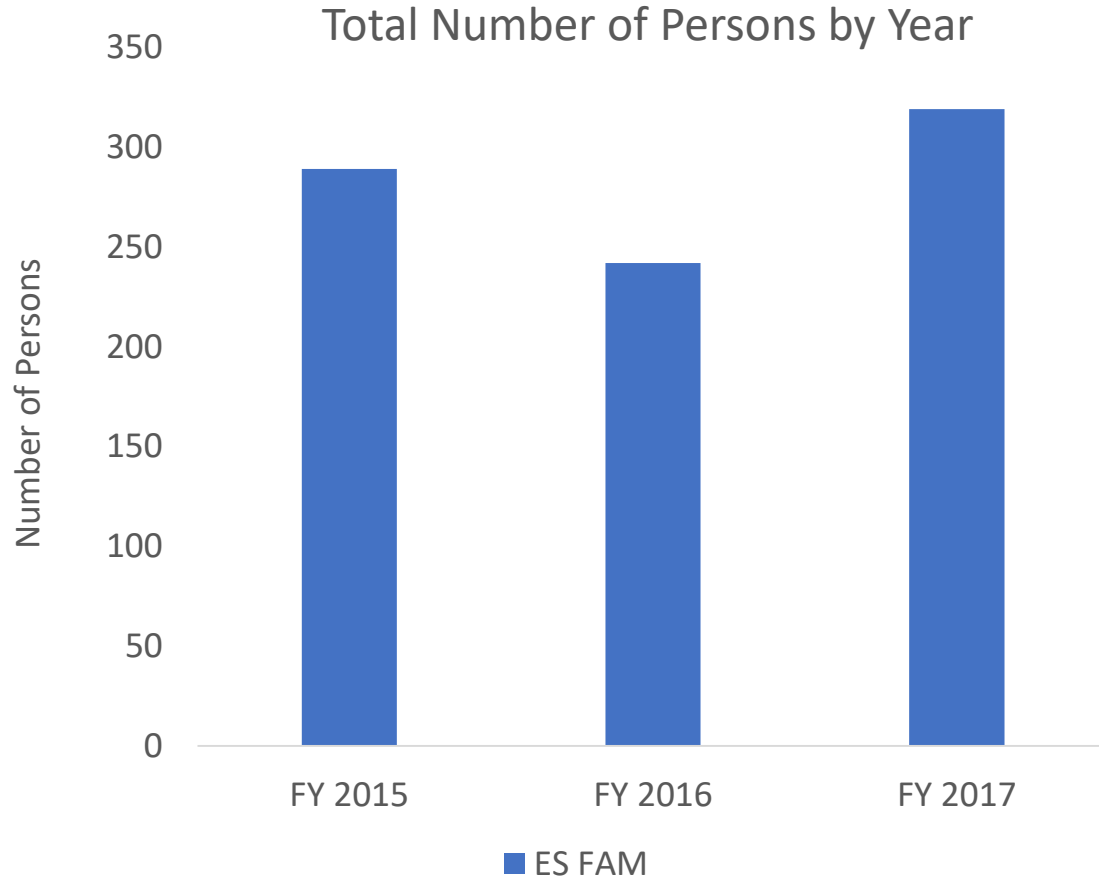

Remember: Missing data is ALWAYS better than inaccurate data

Families in Emergency Shelter

Source: FY17 Wake AHAR data

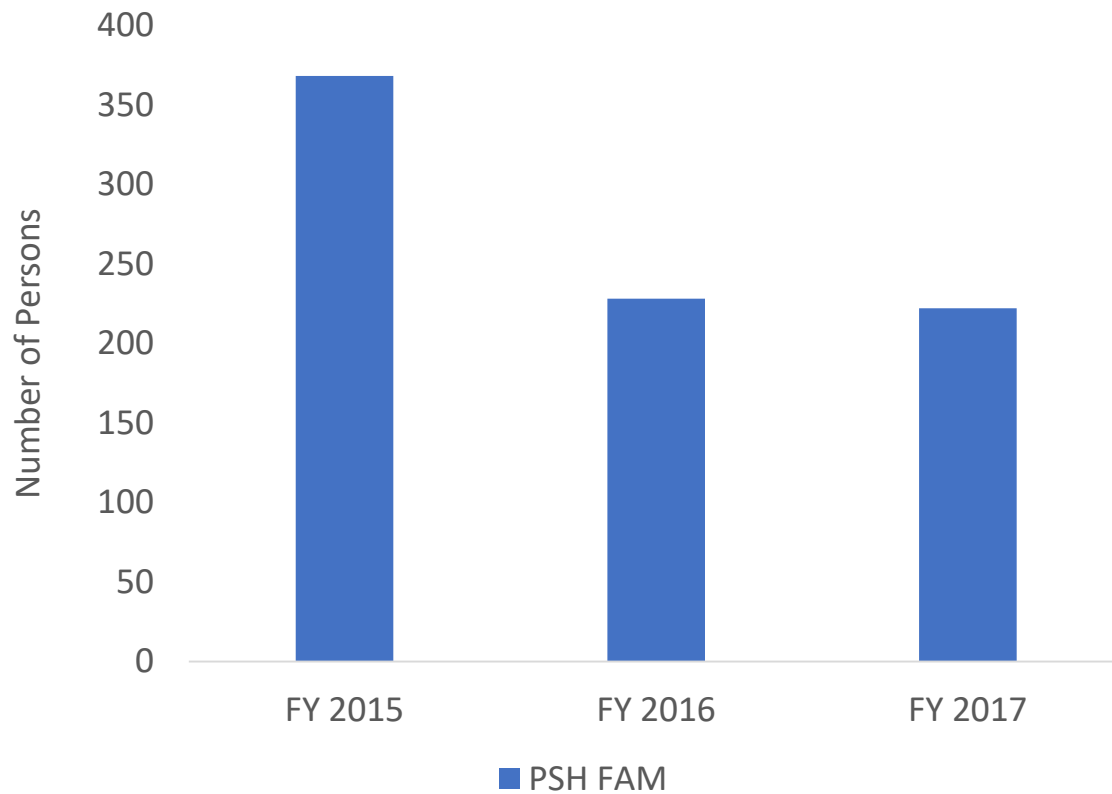

Families in Transitional Housing

Source: FY17 Wake AHAR data

Families in Permanent Supportive Housing

Total Number of Persons by Year

Number of Persons in PSH for Families by Household Size

Source: FY17 Wake AHAR data

Households impact

Households Tab

Household Tab connects ROIs, Entries, Exits

Managing Households is hard, here's our [guide](#)

Entry Intake

Relationship to HoH on Entry is source for HUD

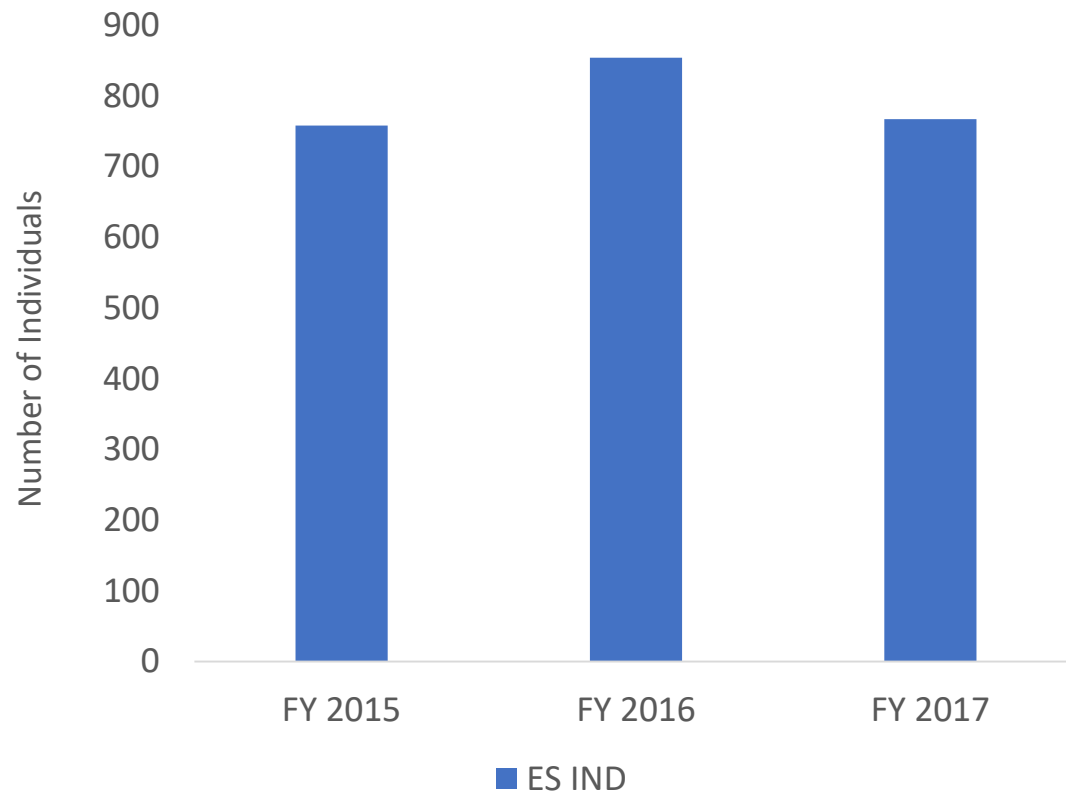

All adults Households can exist!

Remember: Missing data is ALWAYS better than inaccurate data

Individuals in Emergency Shelter

Total Individuals by Year

Age

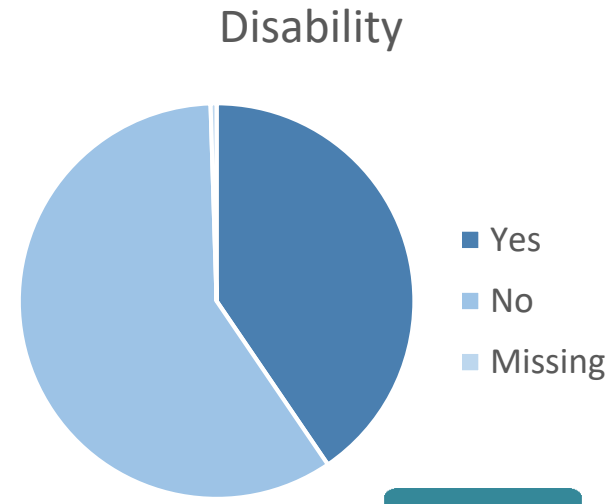

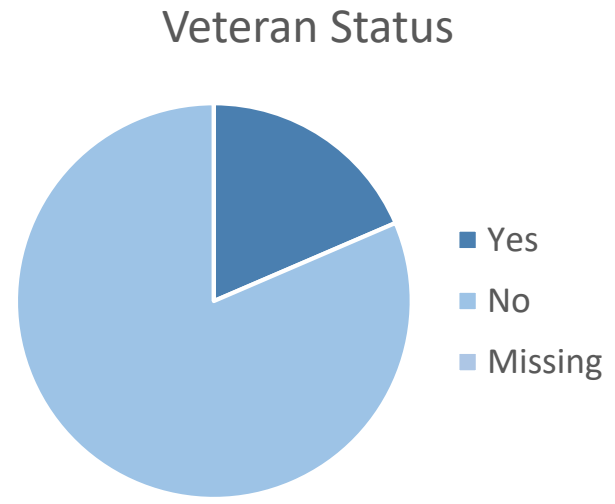

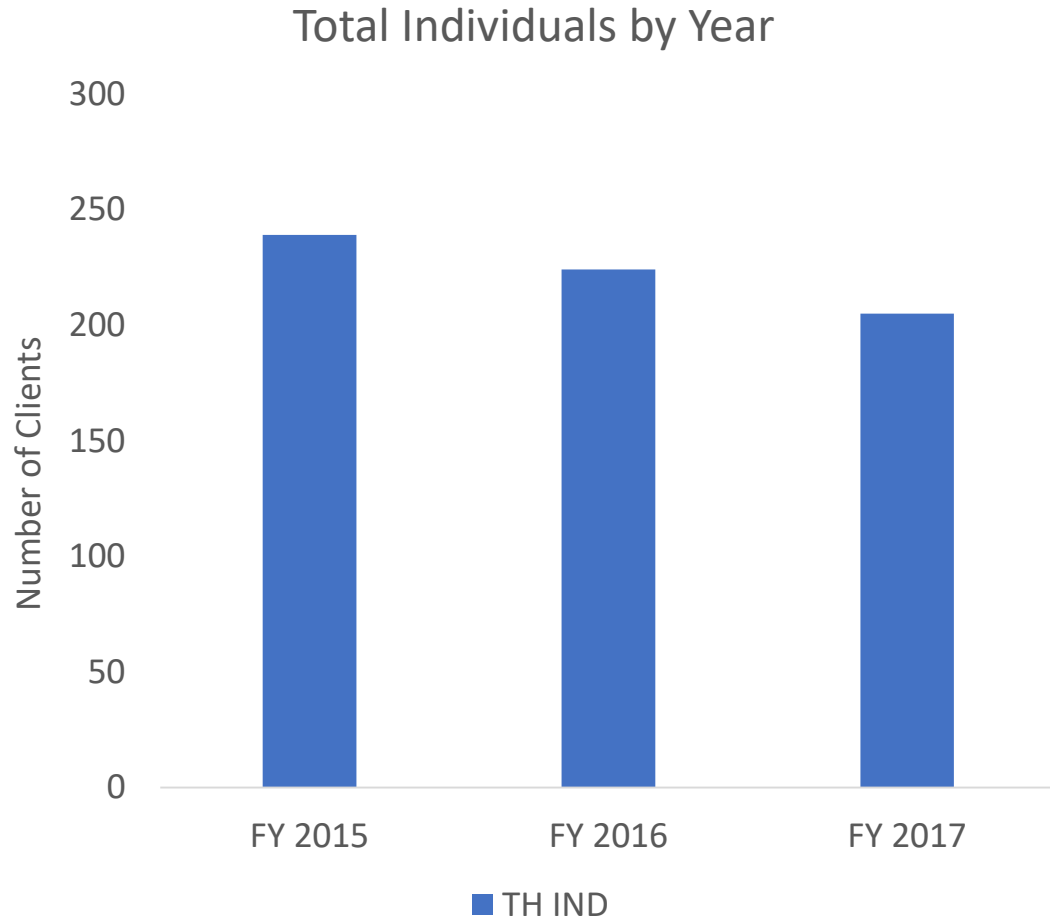

Veteran Status

Disability

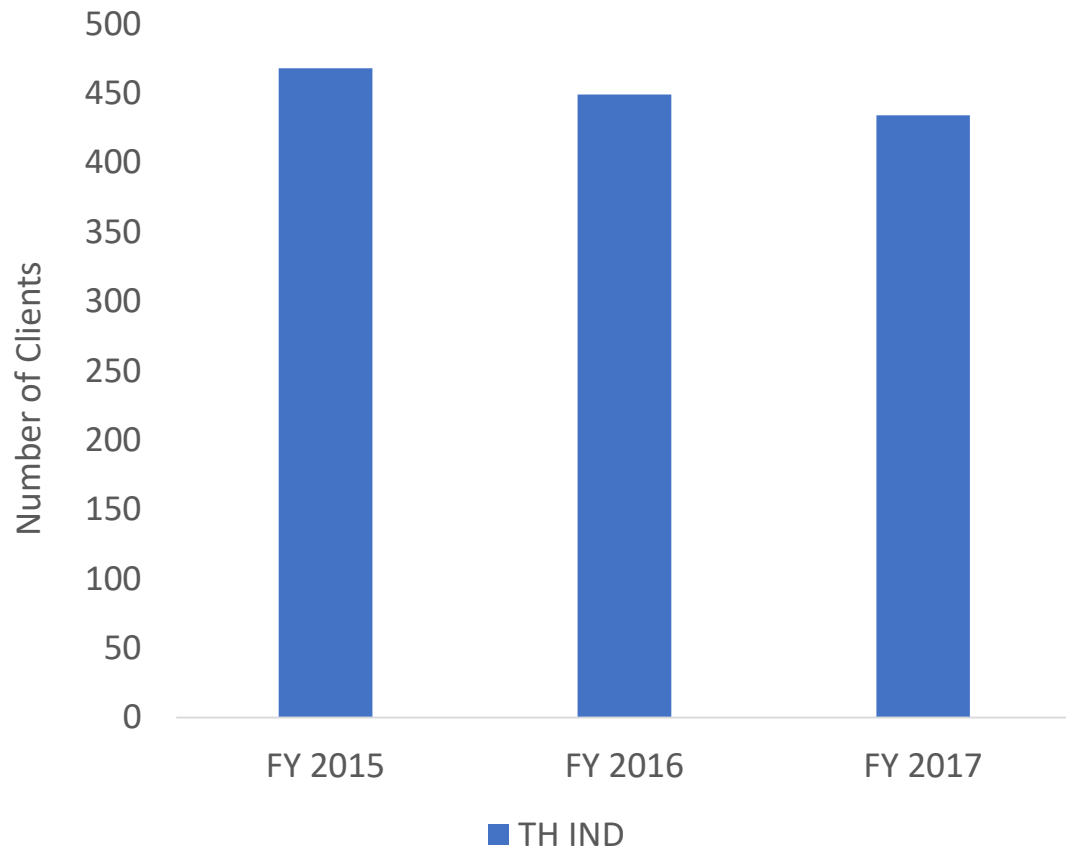

Individuals in Transitional Housing

Individuals in Permanent Supportive Housing

Total Individuals by Year

Age

Veteran Status

Disability

Universal Data Elements impact

Null values

Client Doesn't Know, Client Refused, Data Not Collected

Missing data

Could be missing or could be misplaced with wrong EDA mode or Backdate

Data Conflict or Inaccurate responses

When two answers can't both be true

Remember: Missing data is ALWAYS better than inaccurate data

2017 AHAR Data

Clients Served between 10/1/2016-9/30/2017

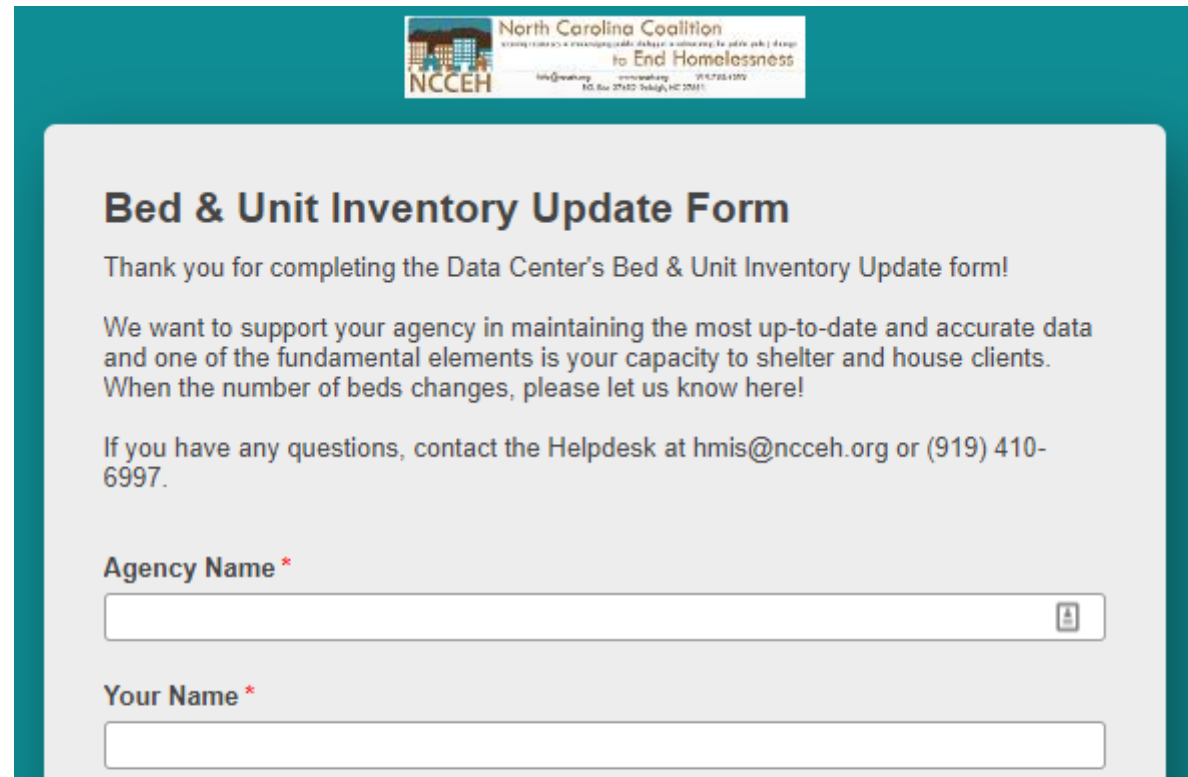

Category	Total Persons	Average Utilization Rate
Emergency Shelters for Families	147	94%
Emergency Shelters for Individuals	306	80%
Transitional Housing for Families	95	83%
Transitional Housing for Individuals	61	75%
Permanent Supportive Housing for Families	184	101%
Permanent Supportive Housing for Individuals	384	100%

Bed & Unit Inventory Impact

Contact the HelpDesk through our new
[Bed & Unit Inventory Update Form!](#)

The screenshot shows a web form titled "Bed & Unit Inventory Update Form" with a teal header. The header contains the NCCDH logo and the text "North Carolina Coalition to End Homelessness". The form body is white with a teal border. It includes a thank-you message, a paragraph explaining the importance of accurate data, and contact information for the Helpdesk. There are two input fields: "Agency Name *" and "Your Name *".

Bed & Unit Inventory Update Form

Thank you for completing the Data Center's Bed & Unit Inventory Update form!

We want to support your agency in maintaining the most up-to-date and accurate data and one of the fundamental elements is your capacity to shelter and house clients. When the number of beds changes, please let us know here!

If you have any questions, contact the Helpdesk at hmis@nccdh.org or (919) 410-6997.

Agency Name *

Your Name *

DQ Check:
System Performance Measures

7 measures to gauge impact

Help communities view their progress towards preventing and ending homelessness

The measures are interrelated and provide a more complete picture of system performance

Identify areas for improvement, needs, gaps

SPM data is pulled from two sources

Connecting your community.

HMIS

HDX

**Housing Inventory Chart (HIC)
Point-in-Time Count (PIT)**

What HMIS client data is included?

October 1, 2015 to September 30, 2017 (24 months)

Any person who entered SO, ES, SH, TH, RRH and/or PSH during the reporting period

Data are reported for individuals and person in families

System Performance Measures

- 1** Length of Time Homeless
- 2** Returns to Homelessness
- 3** Number of Homeless
- 4** Increases in Income
- 5** First Time Homeless
- 7** Exits and Retention of Permanent Housing

System Performance Measures

- 1** Length of Time Homeless
- 2** Returns to Homelessness
- 3** Number of Homeless
- 4** Increases in Income
- 5** First Time Homeless
- 7** Exits and Retention of Permanent Housing

1 Length of Time Homeless

Definition

The length of time persons are homeless in emergency shelter, and transitional housing projects

Goal

Reduction in the average and median length of time persons remain homeless

Meet Henrietta

Length of Time Homeless

Based on Entries and Exits

Length of Time Homeless

Based on Approximate Start Date + Entries and Exits

Approximate Start Date is in the Homeless History section of HMIS Intake

Prior Living Situation (Immediately Prior to Entry)	<input type="text" value="Place not meant for habitation (HUD)"/>
Length of Stay in Previous Place	<input type="text" value="One month or more, but less than 90 days"/> G
Approximate date homelessness started:	<input type="text" value="01"/> / <input type="text" value="01"/> / <input type="text" value="2017"/>    G
Regardless of where they stayed last night - Number of times the client has been on the streets, in ES, or SH in the past three years including today	<input type="text" value="Four or more times (HUD)"/> G
Total number of months homeless on the street, in ES or SH in the past three years	<input type="text" value="6"/> G

What's the difference between Average and Median?

Average = 70 days

Adding 30, 45, 60, 90 and 125 and then dividing by five equals 70 days

Median = 60 days

50% of clients stayed less than 60 days and 50% stayed more than 60 days and

Median Length of Time Homeless by Year

Average Length of Time Homeless by Year

Entries, Exits, and Null Data Impact

Entries/Exits

Date accuracy

Project type (only for ES and TH are included)

Inaccurate Responses

ES and TH entries need clients in beds. Are there practices that prevent accurate Entry or Exit dates?

Null Responses

Approximate Start Date must be collected

Remember: Missing data is ALWAYS better than inaccurate data

Question & Answer

Data security depends on all of us

Do not leave your computer logged in & unattended

Do not share passwords

Alert us when staff with access to HMIS leave your agency
