- Select Sheltered or Permanent Housing (moved-in)
- Select Household and the number of total clients in the family
 - Individual surveys cannot be reconnected later

Best Practices

Conduct client interviews with App questions

- Promotes consistency across the whole region and country
- App includes different questions than intake
- Information may have changed since your intake
- Project file information may be used if interviews not available

Conduct night of or morning after PIT night

- Easier to know who to count
- Avoids double counting
- Plan a designated time – perhaps integrate into existing scheduling
- Survey individuals in private spaces whenever possible
- Answering the PIT survey is not required to receive services

Tips for Good Etiquette During PIT:

General tips:

- Explain the purpose of the annual one-night homeless census of people experiencing homelessness.
- Use open-ended questions when asking demographic questions:
 - “What is your race?” or
 - “Do you have a disabling condition” or even add,
 - “of these options..."
- It’s ok to refuse questions! It’s up to us to ask them.
- Remember you are asking for someone’s time. Thank folks for their help.
 - Offering socks, hygiene products, or gift cards may help incentivize participation.

Frequently Asked Questions

Learn from the experts!

- Confirm if the survey is for an Individual or Multiple Member Household before beginning
- Race is a check all-that-apply question
- Confirm your project's address with your BoS Contact ahead of time to avoid typing in the address
- Ask the disability questions – this helps identify folks experiencing chronic homelessness
