# NC COALITION to end HOMELESSNESS

## SOAR Medical Summary Report Scorecard

This scorecard will be used by staff of the North Carolina Coalition to End Homelessness (NCCEH) to score Medical Summary Reports (MSRs) submitted for SOAR Caseworker Certification.

This scorecard has two goals:

- To ensure that SOAR caseworkers are following the SOAR model as taught by the *NC SOAR Adult/or Child* curriculum
- To provide uniform standards for grading and approving Medical Summary Reports for SOAR Caseworker Certification

NCCEH staff will provide a graded scorecard for each Medical Summary Report submitted for SOAR Caseworker Certification and will review the scoring decisions with SOAR caseworkers. Medical Summary Reports must receive the minimum score in each section of the categories below. If the minimum score is not met, further review of the Medical Summary Report will be triggered.

Overall Appearance of Medical Summary Report: 50 Points		
Minimum: 35 Points		
	Possible Score	MSR Score
Is the MSR on agency letterhead?	2	
Is the MSR typed?	1	
Does the MSR include a Reference Section with applicant information (name, date of birth, and SSN)?	7	
Is the MSR free of typos and misspelled words?	5	
Is the MSR written in a clear, present tense as it relates to the applicant's current symptoms and functioning difficulties?	5	
Does the MSR include quotes from the applicant?	5	
Does the MSR include contact information for the SOAR Caseworker?	5	
Is the MSR co-signed by an acceptable medical source?	10	
Does the MSR include information about the signing physician or psychologist's relationship with the applicant?	10	
	Subtotal	
Introduction: 15 points		

SOAR Caseworker:
