Lakitra Claude gave an update on the COVID Supplies. She will be in contact with the agencies that requested them.

Brian Sike joined the call to give us an update on the “Back at Home” program. The full logistics of the operation are still in process. It appears referrals may be taken from 211 intake calls. When intake is done through a 211 call, an assessment will be performed and prioritized. Coordination of services available within our Region 11 group will be made. Mr. Sike will be joining us for future calls and will update us with information.

There was discussion among the group on methods used to clarify income, child custody, and other situations that will allow each program to better assess their eligibility. Income limits and eligibility criteria were also reviewed.
