Reporting Corrections Feedback!!!

- Before the reporting season starts, we wanted to check in on your thoughts for sending corrections out.

Correction Option	Option Pros	Option Cons
All corrections come to you on one list	• Understand full scope of corrections needed with one due date	• Could have a lot of corrections • Additional corrections might be needed after first round as the software vendor updates reports
Multiple waves of corrections with smaller lists	• Smaller lists are easier to manage • Additional corrections and report changes are built into the process	• Longer correction timeline with more due dates to track and meet
