 - 2021 Survey Results
 - CE Access points attempt to help people find shelter and emergency shelter services, including DV shelters and services.
 - People experiencing homelessness are assessed for permanent housing using the same screening tool
 - Permanent housing programs take most of their referrals from the CE system
 - The CoC could make improvements to the CE system in the following areas:
 - The prevention and diversion screening tool does not seem to significantly aid in diverting households from entering the homelessness response system
 - Emergency shelters should continue to lower barriers and become more housing-focused
 - The VI-SPDAT does not score clients accurately and has been shown to have racial bias. The CoC will consider other tools and/ or prioritization to improve the CE process
 - People experiencing homelessness in the CoC are not offered permanent housing options quickly. The CoC should continue to try to reduce the LOT people experience homelessness and have discussions on how to increase affordable housing.

- NCEH will email BOS HUD-funded agencies and discuss issues and challenges at HMIS Users meeting
