# Educational Policy

- New question in Exhibit 1
- The CoC requires that providers serving homeless families with children ensure that these children are enrolled in school in accordance with the McKinney-Vento Act and are connected to appropriate services in their community. To ensure these requirements are met, the CoC asks providers to designate a staff member who oversees the educational needs of children. This staff member's responsibilities include working with their school system's homeless liaison and linking children to services for which they are eligible.
