25	Criminal Justice System (jails, prisons)				
26	Behavioral Health System (MH hospitals or SA treatment)				
27	Health Care System (hospitals)				

Definitions of Terms

Beds and Units

- **Beds for Singles** are beds reserved for single adults (households without dependent children).
- **Beds for Families** are beds reserved for households with dependent children or households of only children.
 - If beds are not designated exclusively for a particular type of household, record the beds according to how they were used on the night of the PIT. If the program is not at full capacity on the night of the PIT, extrapolate the distribution based on the distribution of the beds that were filled that night.
- **Units for Families** are separate rooms, units, or buildings designated to each house one family.
- **Overflow Beds** are beds that are available on an ad hoc or temporary basis in response to demand that exceeds planned bed capacity. They can include cots, roll-aways, etc. that are only used when the “regular” beds are full.
- **Hotel/Motel Beds** are beds located in a hotel or motel that are paid for by a program (shelter, DSS, church, etc.) either because the program has no beds of its own or its beds are full. They also include HPRP-funded hotel/motel vouchers. All hotel/motel beds are considered emergency shelter beds regardless of what program provides them. The program should only record the beds that were in use on the night of the count.
- **Seasonal Beds** are available on a continuous basis during high-demand times of the year (usually cold-weather months). Seasonal programs should record the dates their beds are available in the Bed Inventory chart (ex. open Dec. 15 to April 15).

Households

- **Households with Dependent Children** include households in which at least one adult and one child are present on the night of the count.
- **Households without Dependent Children** include single adults and adult couples without children. It also includes adults who have children, but whose children are not present with them on the night of the count.
- **Households of Only Children** (new in 2011) are households in which every person is under the age of 18. This includes unaccompanied children under 18, adolescent parents and their children, adolescent siblings, or other household configurations composed only of children.

Chronically Homeless

New in 2011, the definition of chronically homeless has been expanded to include both individuals and families.

- Definition: an unaccompanied homeless individual (18 or older) with a disabling condition **OR** a family with at least one adult member (18 or older) who has a disabling condition who has either been continuously homeless for a year or more **OR** has had a least four episodes of homelessness in the past three years.
 - The disabling condition can include mental illness, chronic substance abuse, HIV/AIDS, physical disability, or developmental disability.
