Community Assessment of System

NC BoS Regional Committee Coordinated Assessment Outcome Report

Gaps identified:	Residence in counties is still a factor that causes gaps in the system.
Addressing gaps:	Conversations with other county agencies to see if funds are available in those counties
Side doors identified:	people trying not to use coordinated assessment as a platform and just making blind referrals
Addressing sidedoors:	Asking all agencies to at least have a basic MOU on file so we can continue conversations
What is going well?	Diversion is working well because we are taking the time to ask questions in the conversations being had at the triage entry point
What are challenges?	Lack of outreach dollars as well as still having some lack of participation in the Region as a whole from providers

Plan Changes and CAC Feedback

NC BoS Regional Committee Coordinated Assessment Outcome Report

CAC Feedback for the Regional Committee:

It seems a lot of people are getting diverted, but aren't receiving any services or financial assistance. Is it that they're receiving a low level of mediation help but agencies aren't counting or reporting it as mediation? Any small service could count as mediation. The CAC recognizes that Region 6 is working toward better regional oversight and collaboration and is happy to support that work in any way it can. The CAC noticed the referral data is missing a lot of people (109 people scored for PSH but not referred) - hopefully that can improve as data tracking improves. Or possibly that number is high, it does seem like a lot more people than one would expect. The CAC is wondering where the side doors you identify are - which agencies?
