## NC BoS Regional Committee Coordinated Assessment Outcome Report

Addressing gaps:	We continue to have ongoing discussions. One program has funding for a family shelter and is trying to raise funds for ongoing expenses.
Side doors identified:	Individuals coming from mental institutions and hospitals are sometimes not appropriately placed. Some needs are beyond shelter management.
Addressing sidedoors:	We need to continue discussion. We have planned a coordinated assessment training.
What is going well?	Ongoing conversations should be helpful
What are challenges?	It's a lengthy process that requires staff time.

### Plan Changes and CAC Feedback

Amendments requested for coordinated assessment plan:	no
Feedback for the CAC:	none

#### CAC Feedback for the Regional Committee:

Great job, this data looks very good. Is it possible to better track what services people who diverted are receiving? It seems a lot of agencies aren't tracking whether someone gets mediation services. Probably almost everyone who doesn't receive financial assistance should be receiving some amount of mediation. Great to see you're tracking people who end up in jail or institutions, are you able to track them so you have some services to offer when they are discharged?
