HUD TA and NCCEH Updates

HUD TA Updates

The Steering Committee and NCCEH Staff met in person at Alamance Community College on June 10, 2025, for a day of connection, listening, learning, and discerning possible next steps to address gaps in the NC BoS CoC Governance Charter.

Key Takeaways

1. The Steering Committee is engaged but would like a deeper understanding of roles, responsibilities, and tasks associated with leading the CoC.
2. The current Governance Charter does not define how the Steering Committee should function as a decision-making body for the NC BoS CoC separate from NCCEH.
3. The current Governance Charter allows NCCEH to lead the NC BoS CoC.

HUD TA Updates

The Steering Committee and NCCEH Staff met in person at Alamance Community College on June 10, 2025, for a day of connection, listening, learning, and discerning possible next steps to address gaps in the NC BoS CoC Governance Charter.

Key Takeaways

4. The current Governance Charter allows NCCEH to lead the NC BoS CoC.
5. This is an opportunity to reimagine the NC BoS CoC's structure and decision-making protocols to meet the needs of clients I local communities while leveraging the content-knowledge and broad network availble at NCCEH.
6. The Governance Workgroup will consist of Steering Committee members and 2 NCCEH Staff.

FY 2025 CoC Program Competition Update

Important CoC Competition Context

- In 2024, HUD released its first-ever 2-year Notice of Funding Opportunity (NOFO) for the Continuum of Care (CoC) Program.
- The FY 2024 CoC Competition followed protocols and processes familiar to communities nationwide.
- The upcoming FY 2025 CoC Competition would have represented the second phase of this 2-year NOFO cycle.
- On July 3, 2025, HUD emailed updated guidance to CoCs that reflects new federal administration priorities.
- A corresponding Congressional funding bill was passed on July 4, 2025, formally solidifying HUD's new strategic direction into law.
- Congress is in recess until Sept. 2, 2025.

Projected CoC Competition Funding Priority Differences

Previous Priorities

- Traditional project types were eligible (PSH, RRH)
- Emphasis on racial equity
- Emphasis on system performance
- Housing first
- New projects for permanent housing were available

Potential FY 2025 Funding Priorities

- Street outreach programs
- Transitional housing programs
- Treatment and recovery services
- Employment-focused interventions
- Potentially no new projects for permanent housing
- Partnerships with faith-based organizations

How are we preparing?

- Monitoring HUD guidance and SNAPS communications in real time:
 - The Grant Inventory Worksheet Change Form was submitted to HUD SNAPS on time.
- Preparing internal communication workflows so we can post be ready to post/email CoC Competition updates to NCCEH partners quickly once the NOFO is released.
- Holding Weekly Office Hours (Thursdays at 2:00pm) to provide space for ongoing questions from partners or potential partners.

CY2026 ESG Program Competition Applicant Selection

Reminder: Conflict-of-Interest Policy

- Persons attending the Steering Committee meeting representing an agency applying for CY2026 ESG Annual Allocation Funding may **not**:
 - Participate in conversation about the proposed slate of applicants
 - Ask questions about the funding proposal for your agency
 - Make a motion related to approving the proposed slate
 - Vote on the proposed slate (please submit 'Abstain' in the chat so we have an official acknowledgement)

The Project Review Committee & CoC staff have completed the ESG application review process.

CoC staff held an orientation meeting for Project Review Committee members on June 24th.

- Oriented members to ESG Program funding
- Explained this year's process and member responsibilities

PRC members & NCCEH staff reviewed project applications & met on August 1st to develop the recommended slate of applications.

Project Applicants submitted materials to NCCEH for review by staff and PRC members.

Project Application deadline was July 15th at 12 PM (Noon).

- 27 applications were received by the deadline. (4 New/ 23 Returning)

Project Application deadline was extended in 8 regions where the full fair share amount was not applied for by applicants submitting by the deadline.

- 9 applications were received by the extension deadline. (2 New/ 7 Returning)

NCCEH received:

- 30 Returning Applications (32 received last year)
- 6 New Applications (5 received last year)

All applications were reviewed using a scorecard and standardized processes.

- Staff reviewed Returning Applications
 - 4 Returning Application was flagged by staff for further review by a PRC member or staff.
- Each New Application was reviewed at least 2 times
 - One to two NCCEH staff person(s) and
 - One PRC member

Staff organized & reviewed the information submitted.

- Project Applications
 - Organized by Region and assigned for review
 - Reviewed for competition, were all materials submitted? Unfortunately, some new and returning applicant agencies did not submit complete applications, resulting in low scores.
- Projects had to meet Written Standards
 - Written Standards were reviewed in Project Application responses and a review of Policies and Procedures. Unfortunately, some returning projects did not submit Policies and Procedures as required for review.
- Project Applications
 - Reviewed for 60/40 splits of Services and Operations/Financial Assistance.

Using Median Scores

- Project Applications were grouped by project type: SO, ES, RRH, HP, HMIS and then within each project type projects were grouped as: New, Returning, VSPs, and a further category of non-profit or local government.
 - Median scores were calculated per Project Type (SO, ES, RRH, HP, HMIS) within these 3 applicant groupings (For example: New ES, Returning ES, New VSP ES, Returning RRH non-profit)
- Projects within each group that did not meet the median score for that project type were not eligible to receive an increase over last year's funding when applications were received that went over the region's full fair share.
- Median scores (above, at, and below) were used to make decisions when having to reduce funding amounts to meet Fair Share.

All 13 Regional Review Forms returned!

- Information from these forms was included in scoring.
- All returned forms were reviewed and discussed during the application selection meeting with the Project Review Committee.
- Red flags identified by regions were highlighted & reviewed during the selection meeting to help inform decisions.

Precedent in decision making

7/15/25 12 Noon Deadline

- Consider applications from agencies that submitted after the 7/15/25 deadline only if extra funding was available in the region, meaning the full fair share was not applied for by the agencies that submitted by the deadline.
 - 8 out of 13 Regions had applications that did not meet the Fair Share by the 7/15/25 deadline
 - 9 applications were received after the deadline this year from 6 Regions
 - 7 of the 9 were returning applicants

Precedent in decision making

- Follow CY2026 ESG Funding Priorities
 - For example, no HP in regions unless low-barrier shelter or SO and RRH are available in all counties in the region using ESG
- Consider information provided in Regional Review Forms
 - 75% regional committee attendance (also in ESG Funding Priorities)
 - 85% case conferencing attendance (also in ESG Funding Priorities)
 - Overall recommendation

Precedent in decision making

- **Applications Under Fair Share:**

- Allocate any extra available funding in a region to RRH financial assistance
 - Only if the project scores at or above the median score.
 - If there are no rapid rehousing project applicants in the region to consider for remaining funds, the CoC will work [*with the NC ESG office*] to reallocate remaining funds to RRH projects with the highest project performance scores in other regions, depending on the amount of funding available and applicant coverage area.

- **Applications Over Fair Share**

- When reductions need to be made to meet Regional Fair Share, HMIS allocations will be no higher than \$2,500 for general population providers (no fee for use of HMIS@NCCEH) and \$5,000 for VSPs (fees for use of comparable databases).
- If a project scores below the median, project does not receive more funding than last year
- Review funding requests for CY2026 versus awarded funding allocations in CY2025
- Default to funding returning applicants.
- Considered each project's coverage of the Region's counties
