Unsheltered PIT Count

Unsheltered Count

- Unsheltered household are counted through the regional by-name list – this is extremely important in your work of connecting households YEAR-ROUND to coordinated entry!
- For an unsheltered household to be counted for the unsheltered PIT they must appear on the regional by-name list and have BOTH of the following:
 - A **Current Living Situation** listed as a **Place Not Meant for Habitation** AND
 - A current living situation date of the **PIT Night Date (January 27, 2027)**

Unsheltered PIT Count

Three ways households can be counted for unsheltered PIT

1. Unsheltered household located on night of PIT and survey was completed with the household and they were entered into HMIS and the by-name list
2. Unsheltered household is currently on the by-name list and is contacted on the night of/day after unsheltered PIT and their current living situation is verified as place not meant for habitation for the night of PIT
3. Survey is completed with unsheltered household (up to seven days after PIT) and their sleeping location on night of PIT is confirmed as unsheltered

Discussion

County-level Data Collection

Unsheltered PIT Count

- Were you able to identify at least one agency/person in each county who can assist in collecting data on the night of PIT?
- Are there any counties in your region you have not been able to identify any agency/person who can help collect data on persons experiencing unsheltered homelessness?
